

Contents

	<i>Page</i>
1. Prospective Effects of Statin in Repression of Matrix Metalloproteinases Activities in Irradiated Rats. A. M. Zahran and M. H. Sallam	213
2. Restorative Effects of Caffeic Acid Phenethyl Ester in Radiation-Induced Oxidative Hepatic Disorders. N. M. El-Fatih and G. A. El-Tawil	235
3. Protective Effect of Low Dose Gamma Irradiation against Oxidative Damage in Rats Administrated with Ferric-Nitritotriacetate. S. Z. Mansour	255
4. Effect of Short PET Fiber and Electron Beam Irradiation on The Properties of Acrylonitrile Butadiene Rubber–Poly(Vinyl Chloride) (NBR–PVC) Blend. H. A. Youssef, M. A. Shaltout, K. F. El Temer & A. A. El Miligy	277
5. Properties and Gamma Radiation Stability of Immobilized Alpha Amylase on Synthetic and Natural Polymer Blends. S. A. Ismail, E. F. Mobasher, M. A. Shousha	295
6. Radiation Synthesis of Super Absorbent Hydrogels Based on Chitosan and Acrylic Acid for Controlled Drug Release. S. A. Ismail, E. A. Hegazy, N. O. Shaker, E. E. Badr and N. M. Deghiedy ...	313
7. Studies on Swelling and Equilibrium Adsorption Isotherms of Basic Dye onto Poly(CMC/AAc) Hydrogels Prepared by Gamma Radiation and Their Thermodynamic Evaluations. N. A. Maziad	331
8. Electron Beam Curing of Acrylate Monomer/ Oligomers Microstructure onto Polyester (PET) Membrane to Modify the Water Wetting Properties. N. A. El-Kelesh and N. A. Maziad	351
9. Acute Rheumatic Fever versus Post-Streptococcal Reactive Arthritis. K. M. Ashry	371
10. A New Theory for Calculation of Some Biochemical Parameters Concentration in Human Serum. K. A. Moustafa and A. I. Amien	383
11. Detoxification Treatments of Free Gossypol in Cottonseed Meal by Microbial Treatment of Mixed Cultures and Biochemical Evaluation on Rabbits. A. I. Atia and G. A. Abdel- Rahim	397
12. Antioxidant Evaluation of Methanolic Extract of Black Nightshades Ripe Fruits against Technical and Formulated Parathion-Induced Damage in Albino Rats. E. A. Abdel-Rahim, G. A. Abdel-Rahim and Atia, A.I.	417
